Risk Assessment for Steam Loco Dept Youth Group Activities - Steam Loco

Risk Assessment - Steam Loco Dept Youth Group Activities

Reference No: STE-45587-19

Version No: 1

Assessment Approver: Kevin Jarvis

The youth group will regularly work in the department carrying out a range of tasks. This RA addresses the risks associated with the group and should be used in conjunction with existing task RA's.

Department: Steam Loco
 Date Of Assessment: 22 October 2024
 Review Due Before: 05 January 2028
 Lead Assessor: David Jenkins
 Team: Alex Caulfield

Youth Group in Steam Dept

Type	Hazard Cause	Persons Affected	Control Measures	L Overall	S Medium - Risk to be minimised and controlled so far as is reasonably practical.	T	Additional Control Measures	L Overall	S	T	Owner/Action
Health and Safety	Personal injury Slips, trips, falls, strains, burns, crush, manual handling, falls from height etc.	Volunteers & Staff	<p>1) CRITICAL - Engineering: Locomotives worked on to be braked or secured in some fashion so as not to move. - Effective</p> <p>2) CRITICAL - Engineering: Locomotives not to be moved whilst undergoing maintenance activities, other than for activities when movement of the loco needs to be observed. - Effective</p> <p>3) CRITICAL - Engineering: No more than 3 wheelbarrows per pit to be used while emptying ash. Barrows not to be overloaded and youths consulted on how much ash/weight they can safely handle. Leaders to monitor carefully to avoid overloading. - Effective</p> <p>4) CRITICAL - Administrative: For pit work, no more than 6 youths to be in the pit at any one time for the purposes of instruction. This reduces to 2 whilst 'ashing out', emptying pits or carrying out any other work tasks. - Effective</p> <p>5) CRITICAL - Administrative: Youths not allowed to be in the pit when hot ash is being removed from locos. - Effective</p> <p>6) CRITICAL - Administrative: Hot ash to be cooled with water before youths can enter a pit and help with disposing of it - Effective</p> <p>7) CRITICAL - Administrative: One leader will be allocated to be the 'Person in Charge' of the activity and to be the person responsible for vehicle movements in the area and liaising with the ground shunter to ensure that youths are well away from any shunting activity. - Effective</p> <p>8) CRITICAL - Administrative: Youths to be made aware of the risks of uncovered pits and be closely supervised when in the area. - Effective</p> <p>9) CRITICAL - Administrative: Youths only to work at height from a platform. - Effective</p> <p>10) CRITICAL - Administrative: All activities to be supervised by a youth group volunteer and a department competent person. - Effective</p> <p>11) CRITICAL - Administrative: Youths to be reminded of their own personal physical limitations and not to overstretch these. Leaders to be aware of the weight of objects and manage this. - Effective</p> <p>12) CRITICAL - Administrative: Leaders to control and youths be advised of any hot surfaces. Leaders to ensure no risk of injury. - Effective</p> <p>13) CRITICAL - Administrative: Leaders to be aware of and control exposure to oils and greases. - Effective</p> <p>14) CRITICAL - Administrative: Leaders to ensure that work areas are safe and tidy before and after activities. - Effective</p> <p>15) CRITICAL - Administrative: Leaders to ensure that trip hazards are minimised and that youths are made aware of any other obstacles or protruding parts that could cause injury. - Effective</p> <p>16) CRITICAL - Administrative: 'Not to be Moved' boards must be in place for all locos that youths are working on or around. - Effective</p> <p>17) CRITICAL - PPE: Head protection must be worn by youths under locomotives and also at other times when there is a risk of falling objects or impact. - Effective</p> <p>18) CRITICAL - PPE: Overalls, gloves and safety footwear to be worn at all times. - Effective</p>	2 x 3 = 6	1) Engineering: Consider the use of barriers around open pits. - Effective 2) Administrative: Consider providing manual handling training to the youths. - Effective 3) PPE: Consider wearing respiratory protection in dusty environments. - Effective 4) PPE: Consider wearing eye protection. - Effective 5) PPE: Consider applying barrier cream before starting work. - Effective	2 x 3 = 6	n/a
